

User Instructions to the E-payment System

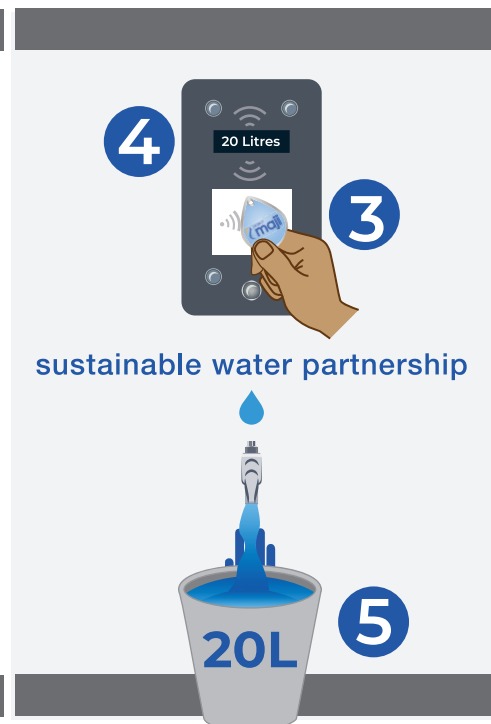

To get water at any time from the **Project Maji water kiosk**, you need a token with credit on it.

The caretaker of the water kiosk in your community will sell credit to top up your token.

Buying one bucket: 20 Litres

1. Place a bucket under the tap
2. Press the button
3. Tap the token to the hub
4. Wait for the beep and display signal
5. 20 Litres bucket will fill up.

Did not fill your bucket?

Get a refund by presenting your user token on the hub again.
