Vendor Instructions to the E-payment System

> The Project Maji manager will transfer credit to your shop token.
> With enough credit on the shop token, you can start selling to customers.

Shop keeper token

1. Press button on hub, bottom left button

2. Hold the shop token close to the hub

3. Look at screen and transferrable amounts will appear

4. Remove shop tag when the correct amount appears

5. Then hold it again close to the hub to confirm the transfer

6. Once confirmed, you remove the shop token.
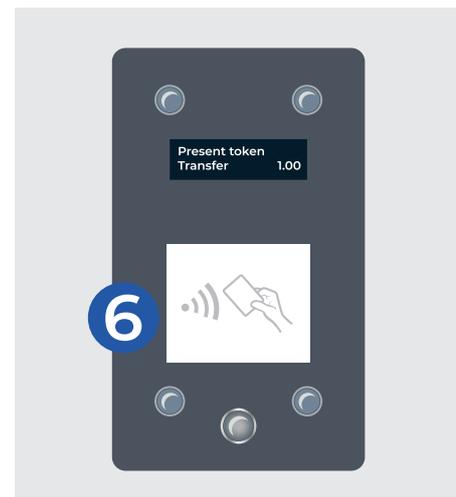

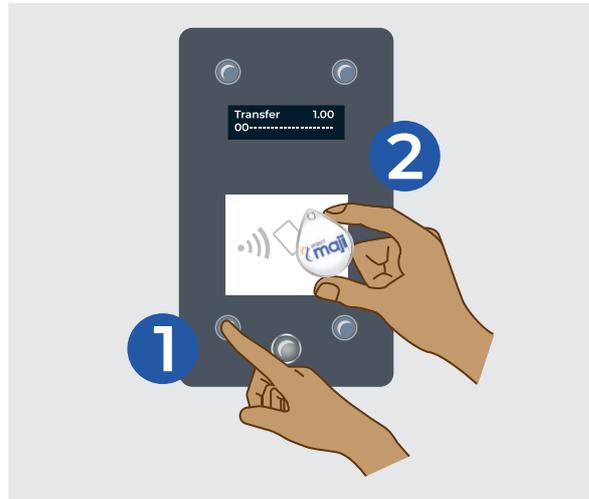

User token

7. Present the user token close to the hub and the transfer will take place

8. Check if the transfer was successful by looking at the display. The balance will be shown.
